Our Mission Statement:

The GACA NFP Organization is dedicated to children with autism. The vision of the organization is to support parents and their autistic children) in developing their life and social skills to a level of independence. Golf will be the vehicle for facilitating this journey. The organization will provide parents with an outlet for their child to show achievement, acquire social skills, and feel a integral part of society.

The future looks bright for GACA...

Making friendships through golf.

- **GACA is a not-for-profit organization founded in 2011 in San Diego, CA.**
- **GACA was established because our lives have been touched by Autism.**
- **Giving Autistic children the opportunity to develop social skills through golf .**
- **No-cost putting clinics and workshops for the Autistic community.**

Welcome to Golf for Autistic Children in America, (GACA) based in San Diego, Ca. GACA was established in 2011 as a Not-for-Profit (NFP) organization created to support families with Autistic Children through their formative years. GACA is chartered to use golf as the vehicle to enlighten and teach autistic children the sport and beauty of golf. Social skills are often a challenge for these kids and golf is a wonderful way to gather kids and families together to participate in a sport they can succeed and grow through. Today, approximately 1 in 100 children are afflicted with this disability.

GACA has targeted several core activities to execute our vision and mission. These activities include: donating Magic Putters to autistic NFPs and other worthy organizations, providing free workshops/clinics on putting, and hold local and regional Putt-Putt tournaments for autistic children.
